

PRIYANSHU NAITHANI

Full-Stack Java Developer

priyanshu.naithani2003@gmail.com | +91 96505 56986 | linkedin.com/in/priyanshu-naithani-352599262 | New Delhi, India

Professional Summary

Full-Stack Java Developer with hands-on experience building scalable, production-style web applications using Java, JavaScript, React.js, Node.js, and Express.js. Skilled in designing and consuming RESTful APIs, implementing JWT-based authentication, and working across SQL and NoSQL databases (MySQL, MongoDB) within an MVC architecture. Experienced in responsive UI development, Git-based version control, and API testing using Postman; comfortable debugging across the full stack and collaborating with cross-functional teams in fast-paced Agile environments.

Technical Skills

Languages	Java, JavaScript, SQL, Python
Frontend Development	React.js, TypeScript, HTML5, Tailwind CSS, Redux Toolkit
Backend & APIs	Node.js, Express.js, REST APIs, JWT Auth, MVC Architecture, FastAPI
Databases	MySQL, MongoDB, ChromaDB
Tools & Practices	Git, GitHub, Postman, API Testing, Docker, VS Code, Debugging, Agile, Version Control
AI / LLM (Additional)	LangChain, LangGraph, Retrieval-Augmented Generation (RAG), Prompt Engineering

Experience

Operations Executive <i>iEnergizer</i>	Jan 2025 – Jul 2025 Noida, UP
- Owned end-to-end workflow coordination for a high-volume client account, collaborating across multiple cross-functional stakeholder teams to ensure delivery consistency - Analyzed and debugged recurring process bottlenecks, implementing structured reporting that drove a measurable reduction in turnaround time	
Student Insurance Advisor <i>StudentCover</i>	Feb 2024 – Aug 2024 Delhi
- Exceeded Rs. 45 Lakhs in sales within 2.5 months through data-driven client consultation and relationship management - Consistently met monthly performance targets while developing strong cross-functional communication and leadership skills in a high-pressure environment	

Projects

AI-Automated Learning Management System	MERN Stack
- Engineered a scalable full-stack Learning Management System using the MERN stack (MongoDB, Express.js, React.js, Node.js), featuring role-based authentication and responsive, mobile-friendly student/admin dashboards - Designed and implemented RESTful APIs following MVC architecture; integrated JWT-based authentication and authorization for secure, role-based access control - Validated API endpoints and debugged integration issues using Postman, ensuring reliable frontend-backend communication across the application - Implemented Redux Toolkit for scalable state management and integrated Gemini AI to automate quiz generation and performance analytics	
Modular AI Reasoning Engine	Python, FastAPI, LangChain
- Developing a modular backend system in Python and FastAPI supporting LLM-based conversational workflows and Retrieval-Augmented Generation (RAG) pipelines - Built document ingestion and vector search pipelines using ChromaDB, LangChain, and LangGraph for multi-step reasoning across PDFs, DOCX, and image inputs	

Education

Master of Computer Applications (MCA) – Computer Science & Engineering , BVICAM, IP University	Jul 2025 – Aug 2027 New Delhi, India
Bachelor of Science (BSc) – General , IGNOU	Jun 2020 – Aug 2024 New Delhi, India

Key Achievements

- Research:** Co-authored “A Novel Machine Learning Framework for Evaluating the Effectiveness of SEO,” presented at Tractate 2026
- IEEE:** Treasurer, IEEE BVICAM Student Branch; represented the branch at DSSYWLC 2025, PIET Jaipur
- Events & NCC:** Core team member for TechFest, NSC 2026, and INDIACOM 2026; represented Delhi at the National Integration Awareness Programme, Jaisalmer
